Desmond Aldridge

WEB DEVELOPER & DESIGNER

PROFESSIONAL PROFILE

Desmond has appeared on stage and film professionally for the past twenty years, having worked as an actor and performing arts professional. As a young teenager, coding had intrigued him on a creative level. He spent a lot of time on the internet peering at webpage source codes, practicing html in chat rooms, and eventually taking a few coding courses in high school. Circling back on this childhood interest in his adulthood, Desmond enrolled in a full stack web development certification program, and is now pursuing a secondary career in web development.
